### Program Description

Focused professional practice evaluations (FPPEs) and ongoing professional practice evaluations (OPPEs) were designed to support the transition of credentialing and privileging from an intuitive process to one that is more objective and evidence-based. They also are intended to help identify and address performance issues as soon as possible so that quality and safety are not compromised. FPPEs and OPPEs are addressed in Medical Staff standards MS.08.01.01 (FPPEs) and MS.08.01.03 (OPPEs).

To help you properly interpret and comply with both standards, this 60-minute program addresses the following:

- Description of the standards and associated elements of performance (EPs).
- Definitions of key terms and implementation suggestions.
- Preview of what surveyors will discuss regarding these standards during the credentialing and privileging session of an on-site survey.

### Objectives

After completing this activity, the participant should be able to:

- Explain The Joint Commission's expectations for the Medical Staff standards.
- Identify and discuss effective strategies to help achieve and remain in compliance with the Medical Staff standards.
- Discuss the accreditation process as it relates to the Medical Staff standards.

### Target Audience

This activity is relevant to medical staff leadership, physicians, medical staff coordinators, directors of medical offices, and risk managers.
